

FEATURES AND BENEFITS

The secret to noise reduction is our **Multi-Layer Technology™**

- Vehicle Tested Friction
- Composite Noise Dampening Layer
- 2nd Noise Isolation Layer
- Ionic Fusion Bond = No Shearing
- Statistically Controlled Plates
- Visco-Elastic Shims

- Strict runout and thickness tolerances provide high temperature strength and durability
- Each rotor is equipped with 47 or more vanes to reduce vibration and pulsation
- Machine finished vanes on the OD & ID provides superior heat dissipation
- Outside surface finish < .7 Microns improves balance and reduces warping and vibration

100% quality inspection assures EVERY part meets and exceeds specifications

Isuzu FleetValue Brake Pads and Brake Rotors carry a one year limited warranty (regardless of mileage). See your local Isuzu dealer or visit www.isuzucv.com
