KNAPHEIDE VAN EQUIPMENT

PARTITIONS

Knapheide Partitions divide your work van into two separate zones: the passenger area, which doubles as a mobile office, and the cargo area for storing parts and tools. In the event of an unplanned stop, Knapheide Partitions offer an extra level of safety and security. Knapheide Partitions are contoured to fit each van and conform to the B-pillar trim and headliner in the van and are constructed of 1/4" ABS thermoplastic, which has mechanical properties of impact resistance and toughness.

SHELVING

Knapheide shelving is a robust, durable van shelving system that creates an organizational solution for your van. The modular design allows for flexibility in both configuration and layout. Knapheide shelving's modern appearance compliments both the current and new generation of commercial vans.

Tough, steel end panels feature a formed, channel construction, both front and back. Coupled with the proprietary spring nut, this design creates a very rigid, strong shelving system.

End panels include pre-punched slots which allow for attaching end panel accessories as well as improve the aesthetics of the product.

Shelving can easily be upgraded with Boxes and Accessories to create vocational solutions.
